Personal Data:

D.N.I.: 35413466

Nationality: Argentinean

Date of birth: 25 July, 1990

Home address: Las Heras 1273, Tandil, Argentina

Mobile: (0291) 154427597

Work experience:

September 2018 - present:

Java Developer in "Globant", Tandil.

Currently working as Java Developer Contractor for the company Electronic Arts, more specifically in the "Pogo" project. Pogo is a web application where casual games are published (pogo.com). My job is bug fixing and generating new features for the different platforms that Pogo has. The technologies used in this project are Java, SpringBoot, Struts, Memcached, Amazon, Jenkins, SmartFox, GitLab among others. The management of servers and cloud technologies are a strong point in this project.

Education:

2020-present: Técnico universitario en desarrollo de aplicaciones informáticas.
Universidad Nacional del Centro de la Provincia de Buenos Aires, Tandil.

2017-2018: Analista del conocimiento. Plan Nacional “111 Mil”, Trayecto Programador,
Tandil

Languages: <u>English: Professional proficiency</u> 2006. Comercial english. William Blake institute. 2005. English. Upper Intermediate. William Blake institute. <u>Spanish: Native proficiency</u>	Skills: Organized Team Work Responsability Fast learner

Volunteering:

We participate in activities with children to bring them closer to the world of technology. The proposal is based on making an "Hour of Code" with them and that they get an idea of what programming is.
